Subject: FW: Please update the High Priority spreadsheet & add RAD requests

To All,

I suspect that you will be receiving calls from many of your submitters this week. The OPPT IO and OCSPP IO also expect that to occur. I need to meet with Deputy AAs again on Thursday and I expect that they will want a report on which cases are now the current "hair on fire cases." So, please update the High Priority Spreadsheet accordingly by COB Wednesday to reflect any new "hair on fire " cases. Thanks.

Subject: Please update the High Priority spreadsheet & add RAD requests

Hello everyone,

This is your weekly reminder to update the High Priority cases spreadsheet with new information about your cases. For any cases that **are not** already on the spreadsheet and need RAD language for the determination documents (columns K through N), please add the new case to the bottom of the spreadsheet.

We ask that you please edit this spreadsheet in the browser, not in Excel, to prevent multiple versions of the document being created. If you need help with this, let us know.

Updates:

- *You no longer need to update the Day 90s (the Post-Focus Tracking Group is handling this).*
- *The Post-Focus Tracking Group is adding all PMNs to this spreadsheet, after they go to Options*
